Your new credit card is smarter and more secure than ever!

A new layer of security in the form of a microchip now comes with your PriorityONE credit card.

Chip technology provides added protection against fraud. Every time you use your card to make an in-store purchase, the chip creates a unique, one-time transaction code that can't be used again.

Upon the expiration of your current PriorityONE Visa Platinum credit card, a new chip card will be issued.

A new chip-enabled debit card will be available soon!
