Phishing & Spoofing 4.0

By TruStage™ & PriorityONE Credit Union

Phishing and Spoofing are the practice of sending fraudulent communications that appear to come from a legitimate source, usually through email, text and phone calls. The attacker's goal is to steal money, gain access to sensitive data and login information, or to install malware on the victim's device.

Some of our members have received spoofed calls from individuals claiming to be from PriorityONE, the caller ID also indicates PriorityONE.

To protect yourself from scammers trying to access your credit union account, be suspicious of any text, email or phone call that:

- Comes from a known/unknown number, claiming to be from the credit union, telling you there is a problem with your account.
- Asks you for your personal, confidential information.
- Uses scare tactics or claims to be "urgent," requiring you act immediately to avoid disaster or asks you to transfer money via a link.

If you receive a suspicious or unfamiliar request claiming to be from PriorityONE Credit Union, **do not click on any links, do not respond to the email or text message. If it's a phone call, hang up and call us immediately at 954.335.5100, Option 2.**
